Copyright © 2015, Vlamis Software Solutions, Inc.
Announced at Oracle OpenWorld, Oct 2015
Available now
Pricing: $150/user/month, 5 user minimum
Goals of DVCS
  • Provide DV capabilities on all platforms – Ubiquitous access to cloud, on premise, mobile, PC, everything
  • Simple to use – geared towards end user departments
  • Visually stunning content
  • No need to create model – upload XLSX and go!
• Has similarities to BI Cloud Services (BICS)
• Load data via Excel .xlsx files
• Can join between multiple Excel files
• 50MB limitation on .xlsx files
• Can share visualizations between users
• Runs with mobile platform using same URL
• Automatic brushing – highlights related data
• Intuitive filtering (eliminates separate criteria tab)
Differences from BICS

• Targeted to end user department, not IT
• Costs less
• Spreadsheet only (eventually cloud sources)
• Does not access RPD files
  (XSA sources now, later SaaS sources, local DBs)
• Does not include Answers & Dashboards
• User can save Insights (will be added to BICS)
• Presentation mode (will be added to BICS)
• Single instance, not Prod and Test that BICS has
Demonstration of Data Visualization
